

Warwick Potters 2017 Newsletter Summer Edition

Hello Potters and Friends

Hi everybody and welcome to a new and exciting 2017. As you all will know I have been given the privilege of being the club president. Thank you all for showing faith in me, I can only hope to live up to everybody's expectations.

I aim to encourage and develop a happy, productive and inspiring club where everyone can come together in a pleasant environment to produce, learn and share in everything that is clay.

One of my main goals is to encourage all members to participate in workshops throughout the year. I personally attended as many as I can and have found them to be a fun and practical way to advance my pottery skills and knowledge. We are looking into organising more workshops at the club in the coming months.

I hope to be an accepting and approachable president and invite anybody with questions and/or suggestions to not hesitate in contacting me by phone, text, email or carrier pigeon.

Looking forward to a great 2017

Regards

Rob Cullen
